“ WORK SHOP ON USE OF ICT TOOLS FOR CAPABILITY BUILDING AND SKILLS ENHANCEMENTS BY STUDENTS”

ICT: Information and communication technologies (ICTs) are the technologies used in the conveying, manipulation and storage of data by electronic means.

ICT for students:

ICT stands for 'Information Communication Technology'. Everyday usage of digital technology includes when you use a computer, tablet or mobile phone, send email, browse the internet, make a video call - these are all examples of using basic ICT skills and technology to communicate.

ICT Skills:

Studying ICT (Computing Science) at third level means you will develop more advanced skills and knowledge. You will deepen your knowledge of technology and how it works. You will learn practical skills like coding/programming and gain a theoretical understanding of topics like computer science and web development.

ICT skills are in demand by employers in many sectors. It is widely acknowledged that there are skill shortages in the ICT area by employers, industry experts and Government officials alike.

AIMS:

- To present ICT as an integral factor of society at home, work and leisure
- To provide access to the skills required for individuals to understand, analyze and utilize ICT as a wealth of tools that facilitate teaching and learning
- To encourage an inquisitive approach in each individual
- To enable the individual to have control over a broad and ever-changing media by using IT

OBJECTIVES:

- To teach students how to use major software packages, these being: spreadsheets; database; word processing; desk top publishing, web design, data logging/computer control and Internet related applications
- To teach how the use of ICT is regulated in society and the implications of this for the individual
- To provide access to analytical problem solving skills, empowering the individual to identify a problem, design and create various solutions, and then make a qualitative judgment as to which is the best tool for the job
- To invite criticism of our own practice and amend our methods accordingly, in the interest of improving the quality of teaching learning.

"WORK SHOP ON USE OF ICT TOOLS FOR TEACHERS"

Use of ICT tools in teaching and learning process is important. These technologies increase students' motivation, self-confidence and self-esteem. These technologies help teachers to create "challenge independent and active learning" as well as the students feel more responsible for their own learning. The contribution of ICT in modernizing teaching and learning helps attempts to incorporate these technologies in order to benefit in terms of quality of education, its utility, access and the cost.

Therefore, this workshop aims to:

- (1) How to use ICT tools in their courses and which ICT tools be utilize.
- (2) Assess the contribution of ICT to learning and teaching from students.
