Action taken...

Although the existing curriculum has been successful in achieving bright outcomes as expected, yet there are certain important issues that need to be addressed. In online mode of teaching some students are unsatisfactory on some practical aspects. Moreover students have also given suggestions for inclusion of topics which are helpful in competitive exam. Some expert lectures are delivered by experts.

Matoshree Vimalabai Deshmukh Mahaidyalaya Amravati, Under Internal Quality Assurance Cell, Department of Physics take feedback Feedback of "non teaching staff (office, Library, and sports and physical Education department) " from students and teachers.

on 20 /07/2021

=====

Analysis of Feedback of "Non- teaching staff (office, Library, and sports and Physical Education Department)" from Students and Teachers.

=====

Please read the below questions carefully and choose the relevant response. Your feedback is valuable for the improvement of the office work, Library and Sports & Physical Education department.

Objectives of the feedback-

Feedback is about listening actively, taking the time to analyze, and then thinking of the best possible solution to perform better. It provides positive criticism and allows seeing what everyone can change to improve their focus and results.

As gateways to knowledge and culture, libraries play a fundamental role in society. The resources and services they offer create opportunities for learning, support literacy and education, and help shape the new ideas and perspectives that are central to a creative and innovative society. So feedback from students and teachers on Library is important.

Support staff is there to carry out specified work in order to assist or support the work of a teacher in the college. The Head must be satisfied that the member of the support staff has the skills, expertise and experience required to carry out the specified work. So feedback from students and teachers on Library is important.

The aim of physical education is to develop through natural total-body activities, primarily on the play level, the physically, mentally, and socially integrated and effective individual. So feedback is important because of where the department of physical education is proceeding towards the goal are not.
